

SAFE MEDICATION PRACTICES FOR BETTER HEALTH

Generation Rx is a nation-wide educational initiative to promote safe medication practices in an effort to prevent the misuse of prescription drugs. The program is being offered locally by Laura Stanton, the Family and Consumer Sciences Educator from Ohio State University Extension in Warren County.

The 60-minute workshop includes engaging activities that teach older adults (55+) safe medication practices. Incentives are available to those who attend a workshop and complete a pre- and post-test.

Please contact Laura to schedule a **Generation Rx** workshop. She is currently scheduling workshops in August and September. You can contact Laura at 513-695-1311 or email her at stanton.60@osu.edu.
