Private Pesticide Applicator Credits

Licensed Ohio pesticide applicators with a private license can obtain recertification credits during this conference. Every three years, applicators must obtain at least 3 hours of training with at least one hour of Core and at least 30 minutes of training for each additional category on their license. Licensed applicators can receive training throughout the three years of the cycle, as long as they meet the total training requirements before their license expires.

Bring your license to the conference. Ohio State University Extension will be set-up to check your recertification status and can let you know how much training you still need to recertify your pesticide applicator license.

How to Register

Online (preferred method)
- Fast & easy.
- Pay with your credit card.
- Receive an emailed confirmation that you are registered for the conference.
- Go to the event website to access the online registration link.

By Mail
- Go to http://go.osu.edu/swohfvsc
- Print off a registration form.
- Make your check payable to OSU Extension.
- Mail your registration form and check to:
  Ohio State University Extension
  Warren County
  320 E. Silver Street
  Lebanon, OH 45036

No confirmation will be sent to you, if you register by mail. Contact the Warren County Extension office if you have questions about your registration.
